DO YOU NEED AN EFFECTIVE SUMMER SCHOOL PROGRAM TO REACH STUDENTS WHO

- Are below grade level in reading?
- Lack automaticity in word recognition skills?
- Seem to know the rules, but can't apply and generalize them?
- Haven't responded to other interventions?

GAME-READY READING IS THE ANSWER

INCREASE AUTOMATICITY OF WORD RECOGNITION SKILLS IN AS LITTLE AS **6 WEEKS**

WITH GAME-READY READING
THE STRUGGLING STOPS

Game-Ready Reading™

DESCRIPTION

Game-Ready Reading is a blended approach to reading intervention optimized for summer school and designed for students grades 2 and above who persistently struggle with reading comprehension and fluency because they lack automatic word recognition skills. Automaticity (quick and accurate word recognition) occurs only when a student can apply and generalize skills.
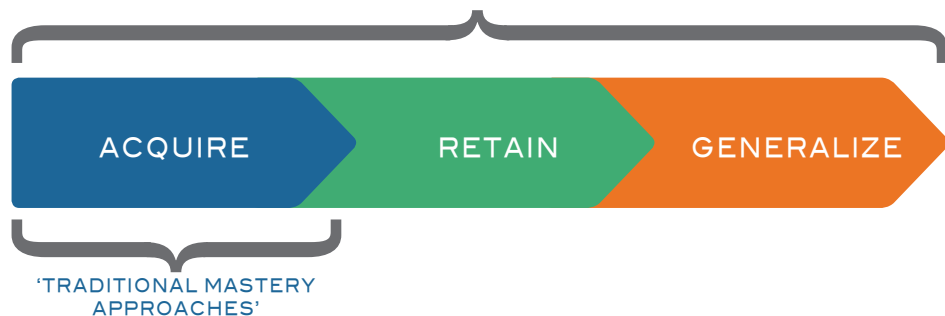

Unlike traditional, mastery-based approaches to reading intervention that focus primarily on skill acquisition, Game-Ready Reading is designed to help students retain and transfer reading skills. Game-Ready Reading is driven by a proven learning model that leads to better retention application and generalization of skills. Game-Ready Reading is the only reading intervention designed for summer school that utilizes this learning model.

Game-Ready reading is effective for struggling Elementary and Middle School readers, as well as English Language learners and Special Education students.

EASY TO IMPLEMENT

Game-Ready Reading is easy to implement in the summer school environment. It individualizes lessons for all students and adapts to their needs while continuously informing the teacher about their progress and performance. The focus on generalization and automaticity promotes the transfer of word recognition skills to connected text.

GAME-READY READING

| ACQUIRE | RETAIN | GENERALIZE |

'TRADITIONAL MASTERY APPROACHES'

Game-Ready Reading™

ADVANTAGES FOR EDUCATORS

- Increases the academic performance of students struggling with foundational reading skills in a summer school environment.

- Highly effective with struggling readers, English Language Learners, and Special Needs students.

- Detailed, web-based reporting tools and email alerts enable efficient monitoring of student usage, areas of need, and improvement.

- Affordable and easy to implement.

ADVANTAGES FOR STUDENTS

- Increases confidence in reading, writing, and spelling.

- Engages and motivates through use of technology.

- Enhances feeling of success because the software adapts to meet individual learning needs.

- Provides a sense of empowerment and control over learning.
